

DIY SNOWFLAKE MATERIALS

Salt Dough Snowflakes

Materials:

2 cups flour

1 cup salt

3/4 cup water

Paint of choice

Reusable straw

Outdoor Glue (to seal)

Instructions:

In a bowl, combine the salt and flour. Add water gradually and mix well until it forms a dough.

Knead the dough for a minimum of 10 minutes, until smooth and bouncy.

If the dough is too dry, add a tablespoon of water. If it is too wet, add more flour.

Roll the dough out into a sheet that is $\frac{1}{4}$ - $\frac{1}{2}$ centimeters thick. Make sure there are no lumps or bumps.

Using cookie cutters or knives, cut the dough into desired snowflake shape

Use the end of a straw to cut a hole a $\frac{1}{2}$ inch from the top—this is the hole that you will string the twine or ribbon through

Bake in your oven and your lowest temperature setting until dry through

Paint and decorate as desired - use Outdoor Glue or Sealent to weatherproof

DIY SNOWFLAKE MATERIALS

Popsicle or Q-tip Snowflakes

Materials:

Popsicle Sticks or Q-tips

Hot Glue Gun and Glue Sticks

Craft Glue

Adhesive Jewels or glitter

Instructions:

Glue your first two sticks in a cross pattern, then spread out consecutive sticks in a fanned pattern and glue into place using hot glue. You can work outwards by continuing to add sticks that cross each other.

Try bending the Q-tips to create different shapes and patterns.

Coat your finished snowflake in craft glue and add jewels or glitter or paint.
